- Partners and members of DQC must behave in a way that is loyal to DQC ´s purpose and collaborate on supporting and strengthening DQC´s position as the organization that represents the Danish Quantum Ecosystem towards key stakeholders, nationally and internationally.
- In case partners plan activities and/or new initiatives that may overlap and compete with DQC ´s mission and vision to build a strong Danish Quantum ecosystem as the main and unifying association, partners should make an effort to inform and engage Danish Quantum Community.
